## PROJECTS

### Rider App

🔗 <https://nirides.com/>

Nirides.com enables users to book rides for parcel delivery and errands, with efficient admin management for rider assignments.

- Implemented a user-friendly interface and streamlined workflow to enhance the user experience and improve operational efficiency.
- Enabled an admin panel for managing bookings and assigning riders to fulfill user requests.
- Developed an application that allows users to create accounts and book rides for parcel pickups, deliveries, or errands.

### Desktop Application

🔗 <https://ogsuperstore.com>

A desktop POS application using Electron.js, React and Laravel for offline transactions, featuring SQLite3 for local data storage.

- Utilized a Laravel backend with MySQL for product management and administration.
- Implemented offline mode for staff to receive products and process transactions seamlessly.
- Integrated SQLite3 database for efficient data storage and retrieval in offline conditions.

# EXPERIENCE

## Full Stack Developer
